

# EUROPÄISCHES PATENT | EUROPEAN PATENT BREVET EUROPÉEN

Hiermit wird bescheinigt, dass für die in der Patentschrift beschriebene Erfindung ein europäisches Patent für die in der Patentschrift bezeichneten Vertragsstaaten erteilt worden ist.

It is hereby certified that a European patent has been granted in respect of the invention described in the patent specification for the Contracting States designated in the specification.

Il est certifié par la présente qu'un brevet européen a été délivré pour l'invention décrite dans le fascicule de brevet, pour les États contractants désignés dans le fascicule.

# EINHEITSPATENT | UNITARY PATENT BREVET UNITAIRE

Hiermit wird bescheinigt, dass die einheitliche Wirkung für das nachstehende europäische Patent im Register für den einheitlichen Patentschutz eingetragen wurde.

It is hereby certified that unitary effect has been registered in the Register for unitary patent protection for the European patent indicated below.

Il est certifié que l'effet unitaire a été inscrit au Registre de la protection unitaire conférée par un brevet pour le brevet européen ci-dessous.

Applicant/Proprietor The London Psychiatry Centre	

**Decision to grant a European patent pursuant to Article 97(1) EPC**

Following examination of European patent application No. 18822464.6 a European patent with the title and the supporting documents indicated in the communication pursuant to Rule 71(3) EPC (EPO Form 2004C) or in the information (EPO Form 2004W, cf. Notice from the EPO dated 8 June 2015, OJ EPO 2015, A52) dated 25.10.22 is hereby granted in respect of the designated Contracting States.

Patent No. : 3723805  
 Date of filing : 14.12.18  
 Priority claimed : 14.12.17/GBA 201720816  
 : 01.12.18/GBA 201819647

## Notes on the decision to grant a European patent (EPO Form 2006A)

Since 1 June 2023, when Regulations (EU) No 1257/2012 and No 1260/2012 began to apply, a number of options have been available for validating your European patent.

### 1. Conventional national validation in the EPC contracting states

The exact validation procedure and any associated translation requirements vary from state to state. The brochure "**National law relating to the EPC**", available on our website, provides useful information on the formal requirements and procedural steps the various national patent offices will ask you to complete to obtain patent protection in their state.

Some EPC contracting states require **a translation of the European patent specification**. Depending on whether or not the state concerned has signed up to the London Agreement, you will need to provide a translation of either just the claims or the entire specification. If you do not provide the translations required, your European patent may be deemed void from the outset.

### 2. Unitary Patent: "unitary" validation in the participating EU member states via a centralised EPO procedure

A European patent with unitary effect (or "Unitary Patent") is a European patent granted by the EPO for which unitary effect has been registered at the proprietor's request. It covers the territories of those participating member States in which the UPCA has taken effect at the date of registration of unitary effect by the EPO. For more detailed information, see the "**Unitary Patent Guide**" available on the EPO website.

To obtain a Unitary Patent, you must file a **request for unitary effect with the EPO**, in the language of the proceedings, no later than **one month** after the date on which the mention of the patent grant was published in the European Patent Bulletin. Your request must be accompanied by a **translation of the full patent specification**, either into English if the language of your proceedings was French or German or into another EU official language if the language of your proceedings was English. We strongly recommend that you use the **Form 7000** functionality specially provided in Online Filing (eOLF) and Online Filing 2.0 to file your request.

Natural persons, SMEs, non-profit organisations, universities and public research organisations that filed their patent application in an EU official language other than German, English or French may be eligible for lump-sum **compensation of their translation costs** if their residence or principal place of business is in an EU member state.

To maintain a Unitary Patent, you only need to pay **one single renewal fee** to the EPO each year.

### 3. Combining a Unitary Patent with conventional national validations

A Unitary Patent is valid only in EU member states participating in the scheme set up under Regulation (EU) No 1257/2012 that have also ratified the Agreement on a Unified Patent Court. This means it does not cover all of the EPC contracting states.

If, in addition to your Unitary Patent, you want patent protection in other EPC contracting states too, you will therefore have to follow their national validation procedures (see point 1 above).

**The procedural steps involved in each of the above validation options are subject to change, so you should always consult the latest editions of the two brochures mentioned above and the information on the EPO website (epo.org).**
